new heavy duty CAST YOKE
for easy infield downrod exchange

Platinum features

- High heat bearings -30°C to 175°C
- Neoprene deflection boot helps keep out moisture and dust
- Neoprene sealed motor case and heavy duty neoprene seals.
- Cold roll steel motor laminations for maximum energy efficiency & heat dissipation.
- Sealed downrod for complete motor moisture protection.
- Corrosion-resistant epoxy prime and finish coat on all metal housing & blade. The aerodynamically curved-tip aluminum blade results in maximum air delivery.
- 9.5 mfd non-polar, weatherproof encapsulated, extra heavy-duty capacitor.
- Totally enclosed .95 amp extra heavy duty, impedance protected motor.
- Use solid state infinite speed motor controls or church quiet control for one fan only (WC103)
- Permanent lubricated sealed TPI ball bearings.
- 7" or 18" downrod, 36" is available.
- Pre-wired with 16" cord and built-in strain relief
- All metal, no plastic.
- Cast iron motor casing.
