- (1) Cords/Lead Wires/Safety Cables measured from top of down rod.
- (2) Model numbers 190A-7, 190A-18, 160F7, 60F7, FP56, FP56-30, FP36 feature plug and cord. All other have 4 wire leads.
- (3) Model 160C, FP56C and FP48R feature straight blades. All other models have curved tipped blades.
- (4) Model 190A also available with 56" diameter straight or curved tipped blades.
- (5) Blade bracket included in measured length.
- (6) Model 190, 160 and 136F fans use E961 30" downrod extension. Extending downrod on 190A will void down rod moisture seal.
- (7) 60F and FP series use E962 30" downrod extension.
- (8) Note: All fans with plug and cord require 60" plug and cord Part # Cord-WH to install 30" standard down rod.
- Parts and installation charge apply if factory installed.
- (9) Customized downrod lengths over 30" available. Also 16' cord with plug part # Cord-WH16.
